

Our Lady of Lourdes High School
131 Boardman Road. Poughkeepsie, NY 12603 (845) 463-0400

Spring 2024

_____ have been recommended by my current Math teacher and am interested in taking Calculus during the 2024-2025 school year. In order to take Calculus, I understand I must complete an approved Pre-Calculus course noted below at either a community college or through an on-line/correspondence course this summer*.

I understand that I must obtain a grade of at least 85 or its equivalent (B) in Pre-Calculus to meet the requirements for admission to the AP Calculus or a grade of at least 80 or its equivalent (B-) for admission into the College Calculus. I will provide a copy of my summer transcript to the Assistant Principal of Academics at Our Lady of Lourdes High School by August 23, 2024.

If I choose not to enroll in a summer Pre-Calculus course, the Assistant Principal of Academics at Our Lady of Lourdes High School must be notified in writing by June 1, 2024 so that appropriate changes in class schedules can be made.

Please sign below and return this form to Mr. Krieger by May 17, 2024.

*** Information and registration regarding summer Pre-Calculus courses may be obtained at www.sunydutchess.edu or **www.keystoneschoolonline.com**

****Keystone Course- Full year Pre-Calculus/Trigonometry**

I understand the above requirements for taking AP or College Calculus in 2024-2025.
